

Summer House Rules For Tweens

if someone is annoying you, then the thing you must do is ask the person to “**stop**”, if they don’t, then ask a parent to help

30 minutes of computer time per session/per kid for games

ask a parent before reaching for a device...see if there is something else you can do instead

reserve about 1 hour a day to clean up the house/messes/laundry...which can be fun!

create an activity calendar, to help us plan out our summer crafts, recipes & activities

plan one big bike ride per week

plan and prepare at least one meal a week

morning TV off at 9am...then it’s off for the day...until a set time

all devices are plugged in and out of the bedrooms at night

treat each other with respect

listen to each others opinions

if you feel you are getting frustrated **WALK AWAY**

Have fun!
